Lithuania, Bulgaria, Italy, Poland, Portugal, Romania

All partners are working hard on developing the content of the both intellectual outputs.

IO1 – 6 areas to work on: psychology, outdoor activities, philosophy, sports, art, personal development. Every partner chose one area in which they have expertise and creates methodological content for youth workers to apply in their work with challenged youth.

Every chapter has a 9 step process: Knowing each other; Identification of the problems; Positive thinking; Challenge youth with fun; Preparation for a challenge; Accepting the challenge; Managing the challenge; Monitoring; Evaluation.

IO2 – the work continues with identifying the best interface for the digital application.
